EDUCATION

B.Sc. Industrial Engineering & Management
Ben-Gurion University of the Negev
2023–2027 | 4th Year Student

MCI | The Entrepreneurial School
Student Exchange Program
2026

TECHNICAL SKILLS

AI & GenAI

- LLM APIs
- RAG
- AI Agents
- MCP
- LangChain
- n8n
- ChatGPT / Claude

Programming & Development

- Python
- REST APIs
- GitHub
- R
- SQL

Data & Analytics

- BigQuery
- Power BI
- Tableau
- Excel

CERTIFICATIONS

AI Engineer Agentic Track: The Complete Agent & MCP Course - Udemy

- Built practical GenAI applications using Python, LLM APIs, AI agents, MCP, tool calling, structured outputs, and workflow orchestration.

VC Analyst - Cactus Capital Academy

- Selected for a highly prestigious program focused on venture capital and startup evaluation.

LANGUAGES

- Hebrew - Native
- English - Professional Level

PROFILE SUMMARY

Industrial Engineering & Management student with hands-on experience in Python, AI applications, data analysis, and technical product environments. Experienced in building practical GenAI solutions using LLM APIs, AI agents, MCP, tool calling, and workflow automation. Strong analytical and problem-solving skills, with experience collaborating with Product and Engineering teams.

WORK EXPERIENCE

Research Assistant 2026
Ben-Gurion University of the Negev

- Developed statistical and machine-learning models for human motion analysis using R and large-scale kinematic datasets.
- Analyzed model performance and translated experimental results into actionable research insights

Business Analyst (Reserve Duty) 2024 - 2025
Sky Rider Association's

- Worked with stakeholders to understand business needs and translate them into structured reports, KPIs, and actionable insights.
- Built Power BI dashboards to monitor performance, identify trends, and support data-driven decision-making.

Technical Presale 2022 - 2023
iSTAR UAV , AVNON HLS GROUP

- Worked directly with customers to understand business and translate requirements into technical solutions.
- Led product demonstrations and guided customers through system capabilities, workflows, and use cases.
- Built strong customer relationships and acted as a bridge between customers, R&D, and product teams, translating feedback into product improvements and technical requirements.

QA Analyst & Robotics Field Operator 2021
Ffrobotics (USA)

- Conducted end-to-end system testing in real-world operational environments, evaluating product reliability and performance.
- Investigated system anomalies and performed root-cause analysis with Engineering and Product teams.
- Identified edge cases and validated product behavior to support reliable production deployments.

MILITARY SERVICE

UAV operator 2018 - 2021
"Sky Rider" special unit in the IDF

- Operated real-time UAV intelligence missions in high-pressure and dynamic environments.
- Analyzed aerial intelligence data to identify operational patterns and support mission planning.
- Demonstrated strong analytical thinking and rapid problem-solving under time-sensitive conditions.

VOLUNTEERING

Summer Camp Counselor 2021
The Jewish Agency for Israel, Camp Livingston – Ohio, USA

- Provided mentorship and support in a multicultural environment, fostering strong camper relationships and leadership development.
